

“Our Thoughts on Girton Glebe” – Year 6 Leavers Assembly, July 2018

All I have to say is, “Thank you.” Thank you for an amazing seven years – they’ve been awesome. From Walnut Tree Manor, to France, to horror movies, to hot chocolates, all have been epic. And, just so you know, I’ve brought some tissues just in case this gets emotional. So, goodbye my friends and may the odds be ever in your favour!

I have enjoyed every moment I have spent at Girton Glebe. I’ve met so many new people, made many new friends and have many happy memories, like when S was thrown in the lake at Walnut Tree Manor.

In the future I want to bake bread and make other delicious foods.

I’ve enjoyed my time here. The most memorable moment for me is the France trip and, particularly photobombing Miss Pyle’s photos during the disco. Throughout my time at Girton Glebe, I have realised that to live a good life, you need to have a good education and, as far as primary school goes, I’ve done well for the first eleven years of my life. It’s been a once-in-a-lifetime experience.

I’ve had the most entertaining and exciting time here. Since the day I stepped into this school, I realised that all of the teachers are wonderful and very caring. An ordinary school day can easily be turned into an extraordinary and unforgettable day. At Girton Glebe, it’s never dull. Who knows what I want to be in the future. Maybe a well-educated professional footballer? Who knows? The very last thing I want to say is a big THANK YOU.

My time at Girton Glebe has been a great time to discover everything I need to know for my age. As I move on, and discover even more amazing things, I will never forget this school. I’ve had great opportunities here, including France, Walnut Tree Manor and all the school plays. I grew at Girton Glebe and I will never forget my time here. In the future, I just want to do well, have a happy family and maybe be a teacher or an archaeologist.

My memory from here is of teachers always helping you with everything, no matter how big or how small. They are very kind. France and Walnut Tree Manor were amazing, with all the activities and Miss Pyle secretly eating Doritos. In the future, I hope to get my GCSEs, get a job I enjoy and have an amazing life full of happiness.

I have been at Girton Glebe for seven years and I have really enjoyed my time here and I've made amazing friends here. I'll never forget France and I don't want to leave! My hope when I'm older is to be successful at whatever I do. At the moment, I'd like to be a police officer.

I have had the best six years of my life at this school, taking part in many once-in-a-lifetime experiences such as: performing Macbeth at the Mumford Theatre and Girton College; singing in the O2; spending time with my friends at Walnut Tree Manor and in France. But all good things come to an end and today it's time for me, and many others, to witness the end of one good thing and the beginning of another. If I were to predict the future, I would see myself enjoying secondary school, making many friends and working hard to achieve my goals.

I am flooded with memories of this school but my favourite is of me J and F dragging A out of bed at Walnut Tree Manor. Who knows what the future will bring. Maybe I'll write children's books or become an explorer and travel the world.

Ever since I arrived here, I've enjoyed making new friends. One of my best memories is of Year 5, when J, F and L "helped" poor A out of bed by dragging him. I hope that everyone at Girton has fun times like mine in the future. One day I hope to use my skills to become a rocket scientist.

I have enjoyed every second of my time at this school. I have made new friends, meet new people and learnt new things. My most memorable experience is the fun we had as a year group at Walnut Tree Manor. In the future, I would love to compete in the Olympics and travel the world. This school will, I know, help me to fulfil my dreams.

I have many memories of my seven years here but, sadly, I can't tell you all of them. They include S going in the lake at Walnut Tree Manor, Miss Pyle having her head chopped off and J going crazy after drinking four bottles of Coke in France. In the future I hope to become an author and to sit at home at my desk, writing books.

Girton Glebe has been a great school and I will miss it because I have many friends here. I've only been here for three years but it feels as though I've been here from the start. I've really enjoyed all the trips we've had and Macbeth and King Arthur's Knights have been amazing plays to do. Sadly, my time here is coming to an end but I'm looking forward to IVC – in particular to doing art there.

I could stand here for a year, telling you how much I have enjoyed being in this school but there's not enough time for that. I have learned amazing things and made many new friends. My funniest memories are of Walnut Tree Manor, going to France and of calling Miss Street mum when she was doing the register. In the future I want to become a doctor: I'm sure my dream will come true.

Girton Glebe has been a special primary school to go to. I particularly enjoyed going to France and I also loved doing Macbeth: it was so much fun! In the future, I want to make more friends at IVC, to develop my art and to have a happy, healthy family. I will miss everyone here. Thank you for everything that you have done!

In Reception, my first memory was of sneaking out of the classroom into the toilets and crawling under the doors, until the teacher found out what we were doing and told us off. I think that me being given Bossy Angel in the KS1 production was appropriate, although it did mean that I had to stand next to D who annoyed me by continually whispering during the performance. My wish for the future is simply to be happy, although I have no clue as to where I will be or what I'll eventually be doing.

Seven years at Girton Glebe might seem like a long time but, if you consider that the oldest person in the world lived seventeen times longer than that (to be around 120), it doesn't seem that long. Also, it only feels like yesterday that I strolled into Reception. So, I'd just like to say thank you to all my teachers, past and present, who have supported me throughout the years. Thank you.

I have enjoyed every minute of my primary school life, learning lots and making many friends over my seven years here. One of my funniest memories is of stealing Miss Pyle's hat, coat and scarf during dinner in France. In the future, I hope to be an explorer, climbing the highest peaks of the world or diving down to the sea floor, always in search of adventure. In the meantime, I shall miss every inch the building here at Girton Glebe.

During my time here, I have experienced many things, from enjoyable trips to getting through (and succeeding in) my SATs. I have many funny memories but my favourite is from Year 4 when W and J mistakenly thought that Miss Farmer, who was taking us for guided reading and had the same first name as my grandma, was in fact my grandma. It's a long story! In the future, I'm looking forward to making more friends at Stephen Perse and to having a long and happy life.

I have attended Girton Glebe for seven whole years. It's been amazing, with some tough times but many more good times. I will always remember France and everything we did there, as well as being a House Captain. I also loved being in the great success that was Arthur's Knights and the Dragon. I also have many, many more memories to take with me to secondary school. In the future, I hope to have a good job that I enjoy, a happy family and lots of friends who are as kind, loyal and brilliant as the ones I have here. I will really miss Girton Glebe.

I have really enjoyed all the fun things that we have done at Girton Glebe. One of the things that I'm looking forward to at IVC is developing my skills in art.

I would like to thank everybody who has helped me here at Girton Glebe, as well as my friends. I'm looking forward to meeting new friends at IVC, as well as keeping in touch with my old ones. I'd also like to get into the IVC football team.

I've been a pupil here for seven years and throughout my time here I've had many enjoyable experiences and have made many friends. Some of my happy memories are the time I fell off my chair in Year 5 because I laughed so much, and M calling Mr Austin Mr Holiday during her PowerPoint presentation. I also loved our plays, including Much Ado About Nothing, Macbeth and Arthur's Knights. In the future, I want to keep up with my good work and to keep on laughing, smiling and being ever so slightly crazy. I will always remember Girton Glebe.

I have enjoyed all of my time at Girton Glebe. Here is a short summary of my time here: fantastic France, wonderful Walnut Tree Manor, extraordinary O2 and marvellous Macbeth. I will miss Girton Glebe but am looking forward to moving on. Who knows what I'll do in the future? Maybe technical engineering? But in the meantime, I just want to do well at IVC.

In my time in this beloved school, I have had many exquisite, entertaining and exciting times. I have met many friends and discovered many teachers' sometimes hilarious personalities. I have loved every minute of my career at primary school but perhaps the funniest moment was when, at Walnut Tree Manor, J and I scared S with a message from a supposed ghost in our room called T. He thought he was toast! It was very funny! I don't know where I'll be in the future but I would like to thank everybody here for everything so far.

I have enjoyed being at this school. Thank you.

Throughout my time here at Girton Glebe, there have been many happy and memorable moments for me. One of my favourite memories is when I bought a huge lollypop in France when we were visiting Rouen. Another is when, like S, I ended up in the lake at Walnut Tree Manor.

In the future, I see myself writing music and playing the guitar. Thank you.

During my time here I have loads of happy memories: from being Fashion Angel in Reception's nativity play, to being in Shakespeare's Much Ado About Nothing and Macbeth, to being a Black Knight in a Pink Helmet in Arthur's Knights. I also remember Megan chopping off Miss Pyle's head and then there were Walnut Tree Manor and France, too, where we made horror movies. Everything has been great fun and I will really, really miss Girton Glebe. In the future I just hope to be happy and to have a good job. Thank you!

I have loved coming to this school and I am really going to miss everyone here. I always remember when Mrs Roban let me and my best friend (J) climb the trees in the forest area. As the years have passed, I finally came to Year Six. My favourite part in year 6 was break time because most of the year sixes all play together. SATS were really exciting but I was quite nervous and I managed to do well. I have enjoyed every moment of my life here. In the future, my hope is to be an engineer.

One of my strongest memories is of France. When E, J and I were just drifting off to sleep, we were disturbed by some strange noises coming from L's bed: he was sleep-talking and attempting to walk whilst lying down! That's just one of my memories of this fun-filled school. I don't know what I want to do in the future but I do know that I'm going to have a GOOD FUTURE! Thank you.

I haven't been at this school for very long but it feels as though I've been here since Reception. I've loved going to France, making new friends and having big parts in two plays. It's a shame we have to leave but everybody has to at some point. In five years' time, I'd love to be starting stage school but no matter what happens, I know that I'll be happy in life.
