

I came to Girton Glebe when I was four. Now, seven years later, my time has come to leave. Over the course of my time here, I have grown and changed so much and had so many fun experiences but I haven't time to tell you all of them. From our Year 6 production, to Grafham, to pizza-making, I have had so many opportunities and I have never been bored. From Mrs Osbourne to Mr Austin, I have loved my wonderful time here: thank you so much for everything.

My time here has been wonderful, interesting and, most importantly, fun! I have met new people and made great friends, many of whom I will see in IVC. There are many memories here I will never forget. I've learnt so much over seven years at Girton Glebe; it's incredible! Thank you so much – I will miss you.

At Girton Glebe, I have enjoyed everything, from my first phonics lesson, to the end-of-year play. I have achieved lots of things here and many of them, I will never forget: loads of celebration certificates, good reports, amazing SATs results and rapturous rounds of applause. I will miss this school and all the fantastic opportunities it has offered me.

I have loved my time here. All the trips I've been on, from my first trip in Reception to my last in Year 6, have been incredible. Some were just for a day and then there was France, which was for an amazing five days! I've learnt and done so much this year but the best part was definitely being able to do it all with my friends! I may not be going to the same secondary school as all of them but I know that they will always be my friends.

I have loved my time at this school. Seven years it has been, although it feels much longer. I am both happy and sad to move on: happy that a new bit of my life will start but sad that I am leaving all this behind. I have achieved so much here overcome so many obstacles and had so many happy times (Grafham, France and the play to name a few). I have changed from a 4-year-old who couldn't write into a capable 11-year-old. This school has been an amazing place for me to spend the first part of my life.

I have had many experiences at this school and I would re-do them all if I could but sadly I can't. However, that doesn't mean that I don't remember them again and again because that's how much they mean to me. I have done everything, from entering a tennis tournament, to getting 100% in my maths SATs paper and I feel that I have grown so much, so.....thank you!

For the time I have been in Birch Class, I have loved it. It has been hard but fun and I have made a lot of friends. Mr Austin has been a wonderful teacher. I really loved acting in the play with my friends and I really like playing with them at break time. I will miss everyone when I go to secondary school.

I have many memories of Girton Glebe. I would like to tell you about a memory from Year One. I found it really hard to write my name during that year and by the end of the year had just about managed to write my whole name. And now, here I am, here, having done really well in my SATs! I also enjoyed France, playing with my classmates and playing rounders with the class. I will miss this school.

My time at this school has been incredible and I have achieved so much, the most recent one being my SATs. They were really hard but I worked hard and it paid off. I also really loved Grafham and France, where we bonded as a class. When I first started here, I was quite nervous but my friends helped me through (as always) and my friendships will last forever. The time from Reception to Year 6 has gone so quickly but Girton Glebe will stay with me forever.

During my time at Girton Glebe, I have had many ups and some downs. When I started this school, I met all these amazing people standing at the front with me and I wouldn't be here now if it weren't for them: they always have my back. To the Year 5s, I just want to say one thing: don't worry, if you work as hard as you possibly can, Mr Austin won't bite. If you do the right thing, you'll find that he's a loving, caring and funny teacher who will always be there for you. If you don't...well that's another story! Goodbye!

This year at Girton Glebe, I have learned about a lot, such as algebra, World War Two and loads more. I really enjoyed the trip to France, the school play and Top-Up-Swimming.

I am so happy to be a student of Girton Glebe, meeting new friends and having a good education. I've enjoyed a whole long list of things while I've been here and I have achieved so much. Without Girton Glebe, I would never have gone to France, to Grafham, or on many other trips. I would just like to thank everybody so, so much for all the time that they have given me and I would especially like to thank Mr Austin for helping me so much this year. Goodbye and thank you once again!

I have achieved loads this year. A big thing for me is that I am better at listening and my concentration has improved and I stay focused on my learning. I don't get sent out of classes any more. One of my funniest memories is staying up all night in France and E____ attacking us!

I started this school half-way through Year 2 but still I have been through so much and I have learned so much. One of my biggest obstacles was SATs but it is my great pleasure to say that I passed. My handwriting has also improved massively. Also, Mr Austin, my teacher, says that I am a great actor!

I have loved my time here and I have improved in everything. From day one, I have improved in everything, from maths to spelling, and from day one I have been trying my hardest in everything. Finally, all the hard work has paid off and I did really well in my SATs. I am now ready to go to secondary school!

I moved here from China and I couldn't speak English and I didn't know anyone here but now I am friends with most of the girls in Year 6.

From my time at Girton Glebe, I have many happy and funny memories and some sad ones, too. I have learned a lot of things: how to multiply fractions, long division and much more! I think that writing is my strongest and certainly the most enjoyable subject. I remember when we were rehearsing our Harvest Festival poem, I nearly fainted and had to sit on the red sofas. I also did really well in my SATs! Thank you and goodbye!

My years in Girton Glebe have been magnificent. I have enjoyed English and Maths with Mr Austin, RE with Mrs Sebley and Science and loads of cooking with Mrs Storer! I am now really looking forward to the journey ahead!

My recent years at Girton Glebe have been amazing. I loved Grafham Water and France because I learned new skills. I have also improved so much this year in my English – not just my handwriting but everything. My time here has been magical!

The past seven years have been amazing and I have felt many moments of joy, success and happiness. I will never forget the time in France when S__ locked himself in the toilet – it was so funny! My attitude to learning has improved massively this year, as well. I am focusing in lessons and have been getting excellent outcomes. Another one of my highlights has to be the O2: I will never forget it. I have made loads of friends and have had a great time here.

During my seven years working at Girton Glebe, I have achieved many things like: sharing, teamwork, writing excellent stories and so-on. I have also made excellent progress in my work, especially this year. However, the one thing that I have enjoyed the most is the people I have met: some older than me; some *much* older than me; some younger and some the same age; some kind; and some funny. I am sure that I will never forget all these people and all these memories.

Right from the word “go”, to use one of Mr Austin’s phrases, I have been determined to be a successful learner in life. Throughout my seven years in this school, I have loved my time and I am extremely happy with all my achievements during my first steps in life and it shows that hard work always gets you there. I cannot thank this school enough for all my amazing memories and it will forever be stored in my heart. This might be an end but for me it’s also a beginning. Whilst my parents may be sitting crying at the back, I’m here at the front, ready for the next step in my career.

These have been the best seven years of my life, starting as a small reception child and ending as a towering Year 6. I will always remember so many things, like T___ and I watching the others sleeping while we were in France and the midnight feast that made us all go hyper in Grafham. I have developed so many great friendships here and, with them, so many memories. I will never forget Girton Glebe.

My time at Girton Glebe has been a dream come true. I have made many friends and of course I have made many memories, which will last me a lifetime. I have been fabulously educated while I have been here and my attitude to learning has improved massively this year.

Since I have been in Year Six, I really do think that I have become more mature, more confident and more responsible. It has been a really challenging year for me but I really have enjoyed it tremendously. If I had to look back, I really do think that I would have come so far in absolutely everything that I have done. I loved our production and all the hard work that we put into it. This has been the best year ever!

Girton Glebe is a place where you can make many friends, work hard and feel welcome. I will always remember it as a happy and inspiring place. From playing duck, duck, goose to doing our SATs, the most important test in primary school, I have loved it all. I will miss you, Girton Glebe.

I love Girton Glebe because it has been fun, encouraging and the perfect place to finish off my primary school career. Even though I only joined in Year 4, I have experienced many amazing trips like Singfest, Grafham Water, France and the O2. Year 6 has been hard, with more responsibility and harder work: the year of my first proper test. In the end it worked out well! I have also loved learning how to play rounders and bench-ball! I could go on forever; this is the shortest version I can write. Thank you!

Ever since the first day of school here, everyone has been really nice and I was able to make lots of new friends very quickly. For most of my time here, I struggled in Maths but as the time has passed, I have got better and better. All the hard work that I put in this year has given me good results in my SATs and I am now ready for secondary school.
